Football

Building communities

Socializing

IT SPESICALIST – LARVIK LOKALET (Volunteer) 2023-2024

I supported daily operations at Lokalet Larvik youth center as an IT specialist. I created and managed a database to track visitor registrations, developed a digital system for youths to register their attendance, performed regular system maintenance to ensure smooth operation, and contributed to the development of a new website. The role required technical expertise, problem-solving skills, and collaboration with staff and visitors.

IT Technician – KULTURFORENING (Volunteer) 2022-2025

As a volunteer IT Technician for KULTURFORENING in Larvik, I supported the operations by maintaining and troubleshooting technical systems. My responsibilities included setting up and managing audio-visual equipment for events and prayers, assisting with basic network configurations, and ensuring the smooth operation of digital tools used for community communications.

IT SPESICALIST – LIER TRADING COMPANY (Volunteer) 2022-2025

At Lier Trading Company, I worked as an IT Specialist supporting the company's day-to-day operations related to vehicle acquisition and sales. I was responsible for maintaining and improving internal IT systems, ensuring smooth functionality of software and hardware, and resolving technical issues as they arose. I helped manage the company's digital inventory systems and contributed to their online presence by assisting with the upkeep of vehicle listings on platforms such as Finn.no. I also played a key role in supporting the digitalization of administrative
